3. DISCUSSION.

Operational and administrative findings support the project in principle, exploratory staff work supports the feasibility and practicability of the proposal, and operational requirements have been translated into such cost estimates as are possible within the limited approvals so far granted. If further implementation of the Project is approved, all construction contracts and other major project expenditures will be made only after review and upon the approval of the Deputy Director (Administration)

4. RECOMMENDATION.

It is, therefore, recommended that implementation of Project [REDACTED] be approved at an estimated Fiscal Year 1953 cost of \$1,600,119.70 and 1954 cost of \$598,000.00, subject to major item approval by the Deputy Director (Administration).
